*17th International Conference on
Fundamental and Applied Aspects of
Physical Chemistry*

Belgrade
23-27 September 2024

PHYSICAL CHEMISTRY 2024

Dear colleagues

As you already know, the previous two conferences, 15th and 16th International Conference on Fundamental and Applied Aspects of Physical Chemistry, were organized as on-line events. Because of unpredictable global international circumstances, at the moment, we do not know the format of the next Conference. Final decision will be announced in a timely manner. However, the date of the 17th Conference will not be changed and it will be held from September 23rd to September 27th, 2024.

Aim of the Conference

The 17th International Conference on Fundamental and Applied Aspects of Physical Chemistry "PHYSICAL CHEMISTRY 2024" is organized to bring together scientists from all domains of Physical Chemistry in order to exchange their recent experience and achievements, and to improve scientific co-operation.

The Organizing Committee has the great pleasure to invite you to participate in the upcoming PHYSICAL CHEMISTRY 2024.

Language

The official language of the conference will be English.

Topics

Chemical Thermodynamics, Spectroscopy, Molecular Structure, Physical Chemistry of Plasma, Kinetics, Catalysis, Nonlinear Dynamics, Oscillatory Reactions, Chaos, Electrochemistry, Biophysical Chemistry, EPR Investigations of Bio-systems, Organic Physical Chemistry, Material Science, Physical Chemistry of Condensed Phases, Solid State and Fluids, Macromolecular Physical Chemistry, Environmental Protection, Forensic Sciences, Geophysical Chemistry, Radiochemistry, Nuclear Chemistry, Phase Boundaries, Colloids, Liquid Crystals, Surface-Active Substances, Complex Compounds, General Physical Chemistry, Pharmaceutical Physical Chemistry, Food Physical Chemistry, Physico-Chemical Analysis, Photochemistry, Radiation Chemistry, Photonics, Free Topic.

Contributed papers

The papers will be divided into oral presentations and posters. The Scientific Committee retains the option of deciding on the presentation form, based on the number/type of contribution, but will try to take into account the author's expressed preference.

Publication

All contributed papers accepted for the Conference, will be published in the Conference Proceedings.

PHYSICAL CHEMISTRY 2024

After the conference, the Scientific Committee will invite the Authors of selected papers to prepare original manuscripts for the publication in *the Russian Journal of Physical Chemistry A and Reaction Kinetics, Mechanisms and Catalysis* as regular articles, in accordance with the journal practice.

Paper preparation

Submission of a paper to our conference implies that the described work has not been published previously and it is not under consideration for publication elsewhere. Next, the paper should be approved by all authors and it is the responsibility of the first author to inform all contributors about presented work.

The papers should be submitted by e-mail (paper17@socphyschemserb.org) before May 31, 2024. The papers received after that deadline cannot be guaranteed the publication in the Conference Proceedings. The authors are limited to no more than three regular contributions and one invited lecture. Invited lectures will be printed in full-length (eight pages maximum). Participants from Serbia are kindly recommended to include one line of the Acknowledgement.

File title should be based on the surname of the first author, and if you submit more than one paper with the same first author, than add some ordinal number, next, add preferred type of presentation (poster or oral) and finally a letter identifying one preferred section (eg. Petrovic_3_oral_J.doc).

Correspondence

For Registration: registration17@socphyschemserb.org

For Paper: paper17@socphyschemserb.org

For Information: information@socphyschemserb.org

*Dear colleagues
Welcome to Belgrade*
